The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/596,078	Applicant(s) MATICH, FRANK	
	Examiner CHRISTOPHER SCHATZ	Art Unit 1791	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, drawn to a method, Claims 15-27

Group II, drawn to method, Claims 28-32

Group II, drawn to a product, Claims 33 and 34

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical features shared between the Groups do not make a contribution over the prior art and thus said common technical features do not qualify as special technical features. Evidence that the shared technical features do not make a contribution over the prior art can be found Dummett (US 20030226480, figures 6-8) and Dickens (US 4240557, figures 2-5)

Art Unit: 1791

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: wherein said least two parts are sub-assemblies of a wiring harness

Species B: wherein said annual assembly is a multi-tier pallet cage.

4. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The common technical features shared between the Species do not make a contribution over the prior art and thus said common technical features do not qualify as special technical features. Evidence that the shared technical features do not make a contribution over the prior art can be found Dummett (US 20030226480, figures 6-8) and Dickens (US 4240557, figures 2-5).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

5. The claims are deemed to correspond to the species listed above in the following manner:

Species A: claims 21, 22, 27, 29, 32 and 34.

Species B: claims 24-27, 30, 31 and 34

The following claims(s) are generic: 15-20, 23, 28 and 33.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
